PRODUCT DESCRIPTION:

Organic Sprouted Brown Rice Protein with added vigour enhancing Cacao and Maca powder. For healthy fats, we include Chia Seeds and Bee Pollen. Greens of course had to be in there, so we added Kale as it's the "King of the Greens". Mesquite powder was our pick not only because of its ultra-low GI quality, but because it's lovely caramel tones go beautifully. Finally we added a bit of divine intervention in the form of Shilajit which due to its high fulvic acid content improves nutrient absorption. Then astly to top it off we added a tint of Ground Vanilla Bean Powder to leave a lovely smooth, velvety tone.

27% Organic Sprouted Brown Rice Protein – is a 80% pure, hypo-allergenic protein and includes the bran and the endosperm layers, which not only retains the fibre & the amino acid profile.

20% Organic Cacao Powder – delivers an incredible nutritional profile from its abundance of antioxidants, magnesium, iron, omega-6 fatty acids, through to beneficial alkaloids such as Theobromine and significant quantities of tryptophan, a powerful mood enhancing nutrient.

13% Organic Mesquite Powder – boosts extraordinary levels of macro and micronutrients. It adds natural sweetness, just very low of the GI scale, meaning it gives long lasting energy.

13% Organic Black Chia Seeds – Excellent source of omega-3 fatty acids, along with high protein and fibre content. Maca has a slightly malted flavour, with butterscotch overtones.

10% Organic Maca Powder – powerful strength and stamina enhancer, as well as adaptogen, that has the ability to balance and stabilize the glandular-hormonal system, nervous system, cardiovascular system, and musculature.

10% Kale Powder – boosting an extraordinary level of protein for a leafy green, on top of high level of iron and magnesium.

5% Bee Pollen Granules – Gram for gram contains more protein than any other known food. Better still, the protein has been pre-digested making it fully bioavailable.

1% Organic Ground Vanilla Bean Powder – we've added just a hint of this exotic spice to round out your Complete Blend with a lovely, smooth velvety tone.

1% Shilajit Powder – The active principle of shilajit is fulvic acid (60-80%) which is water-soluble and moves through the system quickly and acts as an extremely potent antioxidant. It is able to promote the movement of minerals into muscles, tissues and bones and acts as an adaptogenic substance that helps people adapt to environmental stressors more effectively.
